18	450	£ 1,550.00	£ 3,400.00
24	600	£ 2,860.00	£ 5,480.00

#300 joints are in almost every case, identical to #600 joints.  
 It is for this reason that we offer #600 joints in place of #300.  
 This means that there is no difference in price or lead time, but the joints we supply to you  
 are certified for higher pressures.

Prices and lead times for joints / pressure ratings not listed are available upon request.

Prices correct at time of writing (Oct 2013) and can only be used as a guide  
 Prices apply to standard specification joints only
